Date 24 August 2010

Reference XI/1111/2007/8
Doc No. 11

Dear Mrs Evans

**REQUESTS FOR ADVICE IN RESPECT OF PLANNING APPLICATIONS IN THE VICINITY OF
LICENSED EXPLOSIVES FACILITIES**

Planning Authority Ref: 10/01695/COMIND

Proposal: **Replacement Hydrodynamics Research Facility including an operations building with lightning protection system, a support building, an electrical substation and associated landscape areas including a sustainable drainage system together with construction related infrastructure including access roads, construction compound, fencing, gates and ancillary facilities**

Location: AWE Aldermaston, Berkshire RG7 4PR

I refer to your email of 24 August 2010 that was sent to David Lee of the Health & Safety Explosives Inspectorate regarding the above planning application

The Explosives Inspectorate, having considered carefully the type and location of the proposed development, has no comment as this is an explosives site and the works would be subject to licensing by the Explosives Inspectorate under the Manufacture and Storage of Explosives Regulations 2005.

If you require further advice on this matter, please do not hesitate to contact this office.

Yours faithfully

Evan Bale
HM Inspector of Health & Safety (Explosives)
