Dear Ms. Evans,

Town and Country Planning Act 1990

AWE Aldermaston

Application for Discharge of Conditions 10, 11 and 14 Planning Ref 09/02396/COMIND

I write in regard to the above and seek final discharge of Conditions 10, 11 and 14 of the above Planning Approval.

Planning Condition 10

In respect of Surface Water discharge from the site a comprehensive SUDs scheme will be submitted to discharge condition 12. This scheme will attenuate surface water flows to allow them to be safely discharged via the existing Site Surface Water drainage network, with no increase from existing flow levels.

In respect of foul drainage, the foul water will discharge to the AWE existing foul drainage system. As the development replaces an existing facility there will be no increase in foul drainage requirement.

Planning Condition 11

I enclose 4 copies of each of documents listed under Enclosures. This indicates the buildings to be demolished and the indicative programme for carrying out that that demolition. Therefore the first part of condition 11 may be discharged, leaving the implementation of the programme to be completed for final discharge of the condition.

Planning Condition 14

This development replaces an existing facility and as a consequence there will be no increase in water supply requirements.

The fee of £85.00 has been paid by BACS transfer in week commencing Monday 7th June 2010.

AWE is a Government Owned Contractor Operated organisation. AWE is operated by a joint venture of Jacobs Engineering, Lockheed Martin and Serco.
AWE is the trading name of AWE plc. Registered in England and Wales. Registration no. 02763902. Registered office: Aldermaston • Reading • Berkshire • RG7 4PR

Website: www.awe.co.uk

I look forward to receiving confirmation that Conditions 10 and 14 have been fully discharged, and condition 11 has been partially discharged as above.

If you require any further information please do not hesitate to contact me.

Yours Sincerely

Ian D Ward.

Ian D Ward
Site Planning Liaison Manager
