09/02396/COMIND: Replacement facility for the storage and handling of enriched uranium covering 18,489 sq m gross floor space on a 10, 496 sq m footprint, including office accommodation , storage facilities, material handling areas and ancillary support services. Construction related infrastructure is also proposed including access roads, construction compound, fencing, gates and ancillary facilities - AWE Aldermaston, Aldermaston.

Thank you for your consultation on the above planning application.

I have checked the proposed development against the information we currently hold regarding the archaeological features in this area. This evidence suggests that there will be no significant impact on the archaeological resource.

I do not, therefore, believe that any archaeological assessment or programme of investigation and recording will be necessary in relation to the current proposal.
