Date: 14th December 2009

RE: Replacement facility for the storage and handling of enriched uranium covering 18/489 sq m gross floor space on a 10,496 sq m footprint, including office accommodation, storage facilities, material handling areas, and ancillary support services. Construction related infrastructure is also proposed, including access roads, construction compound, fencing, gates, and ancillary facilities.

Thank you for consulting Transport Policy on this application.

Transport Policy have no comments to make on this application other than it is expected that both staff and construction movements to this development will be subject to the current Travel Plan developed for AWE.
