Review Date:	PRELIMINARY SAFETY REPORT	Reference: [REDACTED]

Contents

Glossary 1

0. Executive Summary 6

1. Introduction 8

1.1 Background 8

1.2 Requirement for New Facility 9

1.2.1 Capability 9

1.2.2 Sponsor's Requirements and Success Criteria 10

1.3 Optioneering Process 10

1.3.1 Uranium Strategy Options Study 11

1.3.2 Best Practicable Technical Options Studies 11

1.3.3 Best Practicable Means Review 12

1.4 EU Facility Capabilities 12

1.5 Main Features of Facility 12

1.6 Scope of PSR 13

1.7 Project Programme 14

2. Facility Description 16

2.1 Design Safety Principles 17

2.2 Location 18

2.3 Interactions with Other Facilities 18

2.4 Building 20

2.4.1 Receipt / Despatch and stores 21

2.4.2 [REDACTED] 21

2.4.3 [REDACTED] 22

2.4.4 [REDACTED] 22

2.4.5 Waste Handling 22

2.4.6 Surveillance 23

2.4.7 Radiography 23

2.4.8 Certification and Testing 23

2.4.9 [REDACTED] 23

2.4.10 [REDACTED] 23

2.4.11 Plant and Services 23

2.4.12 Change Rooms 24

2.4.13 Offices 24

2.4.14 Emergency Control Point, WCC and Emergency Assembly Building 24

2.5 Services 24

2.5.1 Ventilation System 24

2.5.2 Other Services 25

2.6 Processes and Equipment 26

2.6.1 [REDACTED] 26

2.6.2 [REDACTED] 26

2.6.3 [REDACTED] 27

2.6.4 [REDACTED] 28

2.6.5 [REDACTED] 31

Issue Date: 17/03/06	Directorate Major Projects [REDACTED]	Issue No: 03
Review Date:	PRELIMINARY SAFETY REPORT	Reference: [REDACTED]

2.6.6	[REDACTED]	32
2.6.7	[REDACTED]	33
2.6.8	[REDACTED]	34
2.6.9	[REDACTED]	34
2.6.10	Safety Systems	35
2.6.11	Environmental Aspects	39
3.	Operating History and Future Operations	43
3.1	Operational Experience – [REDACTED]	44
3.1.1	Review of NII and EA Concerns with the [REDACTED] Facility Safety Case	45
3.1.2	Review of Abnormal Events in [REDACTED]	47
3.1.3	Review of Lessons Learnt in [REDACTED]	48
3.2	Operational Experience – [REDACTED]	49
3.2.1	Review of NII Concerns with [REDACTED]	49
3.2.2	Review of Abnormal Events in [REDACTED]	50
3.2.3	Review of Lessons Learnt in [REDACTED]	50
3.3	Environmental and Personnel Monitoring in [REDACTED]	52
3.3.1	Personnel Monitoring	53
3.3.2	Environmental Monitoring	53
4.	Risk Assessment	55
4.1	Safety Assessment Principles and Acceptability Criteria	56
4.1.1	Design Safety Principles	56
4.1.2	Acceptability Criteria	56
4.2	Hazard Identification	58
4.2.1	HAZID Studies	58
4.2.2	Preparation of the Fault Schedule	58
4.2.3	Safety Related Interactions With Other Facilities	59
4.3	Deterministic Risk Assessment	59
4.3.1	Criticality	59
4.3.2	Loss of Containment	63
4.3.3	Fire and Explosion	64
4.3.4	External Dose	66
4.3.5	Chemical Hazards	67
4.3.6	Industrial Hazards	68
4.3.7	Waste / Effluent Generation	69
4.3.8	Contaminated Wound	69
4.3.9	Loss of Services	69
4.3.10	External Hazards	71
4.3.11	Ergonomics and Human Factors	73
4.3.12	Interactions Hazards	79
4.4	Design Basis Accident Analysis	84
4.4.1	Criticality	86
4.4.2	Fire and Explosion	86
4.4.3	External Dose	88
4.5	DBA ALARP Assessment	88
4.5.1	Elimination	89

Issue Date: 17/03/06	Directorate Major Projects	Issue No: 03
