Acquisition Description

The Government intends to award a Research & Development contract for Integrated Strategic Planning and Analysis Network Modernization software effort. This will be an evolutionary acquisition using spiral development. It will also include operations and sustainment (O&S) of the developed software once it is delivered to production. Also O&S for the extant software of some small Legacy applications will be included: Theater Integrated Planning Systems, Data Management Services, and Document Production System. This O&S will begin when the contract ends. There is also optional work related to the C2 Software O&S: EDB Database Administration, Data Services, Operations & Sustainment and Additional ISPAN Extant Product Line O&S. The estimated dollar value of this effort is \$370M. The place of performance will be USSTRATCOM at Offutt AFB, NE, and the appropriate contractor facilities. This will be a Cost Plus Award Fee contract. This effort does offer subcontracting possibilities, so a listing of companies that have expressed an interest to the Government will be posted with this synopsis. Note* As Of 15 Feb 2004, ESC/NDK, Hanscom AFB has contracting authority. The new Solicitation number is FA8722-04-R-0003. *As of 24 Feb 2004 all updates to posted documents will be on this HERRB site. However all interested parties can refer to the FedBizOps site
