## ITEM OF INTEREST

readiness change
SUBJECT: (U) Dyal Capable Aircraft (DCA) Fighter-RICHARIZO De HAWEY
SUBJECT: (U) Dyal Capable Aircraft (DCA), Fighter-RICHARIDO E HAWDEY  TO: ACC/CC  APR 1 3 1998
1. (8) The Joint Staff advised us of a change to the Nuclear Supplement to Joint Strategic Capabilities Plan For FY 1996 (JSCP FY 96). The JSCP FY 96 (JT 1996) tasks the Service Chiefs and CINCs to maintain Nonstrategic Nuclear Forces (NSNF) for
(8) The Air Force will maintain [ X 19 emose ]  This force will be supplemented with squadrons [ m (once size )
(U) The change will result in the following:
(8) The Air Force will maintain \( \times \t
2. (8) For the past two years, ACC/DON has advocated a reduction in DCA fighter-nuclear readiness levels to reflect world conditions. Recently, the Joint Staff requested recommendations to the current JSCP DCA readiness level. Our input to the Joint Staff, in coordination with \( \sum \subseteq \text{USACOM}, \text{ proposed the CONUS-based DCA units be allocated to } \)
Though the Joint Staff maintained the entire CONUS-based DCA force for world-wide commitment, this is still a significant milestone for ACC in reducing OPTEMPO
Thas been advised of the upcoming change.
