

Title / Database

NPS Group

MIDB 2.x databases: COCE databases (with some + 10B at CG + 2d sheets)

Installation database	replace old EUIDAB
facility database	replace old EUIDAB
equipment database	replace old EUIDAB
unit database	replace old EUIDAB
population database	replace old EUIDAB
installation, facility, and equipment	replace old NADOB using USSTRATCOM databases

specification for creating an ~~enemy air defense~~ } from 10B files  
enemy air defense order of battle

~~USSRAT~~

USSTRATCOM files

SAM attrition rates

like named file in NPS

Fighter attrition rates

like named file in NPS

Frühstück separate dist-

like named file in NPS

DIA files not on COCE population polygons like named file in NPS

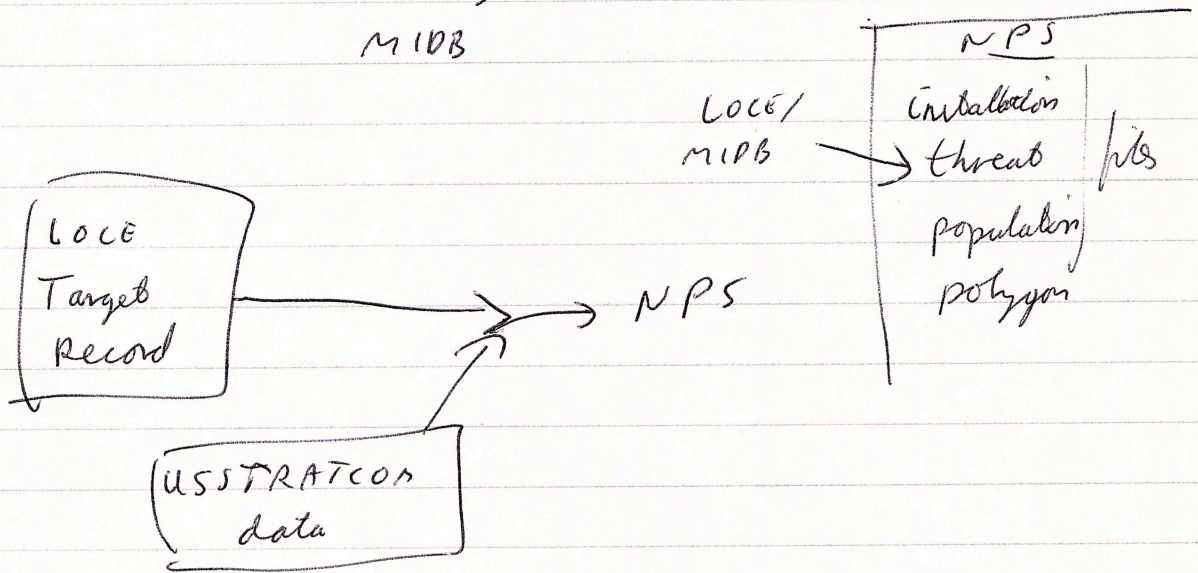

LOCE

NPS

targetting  
 air mission planning (applications)  
 (Targetting - nomination,  
 selection, weaponing) of nuclear targets  
 Mission plans - weigh several competing factors  
 to maximize chance of successful  
 missions against a set of targets

LOCE → installation  
 + threat databases  
 ↑  
 MIBB

CRISIS PLANNING

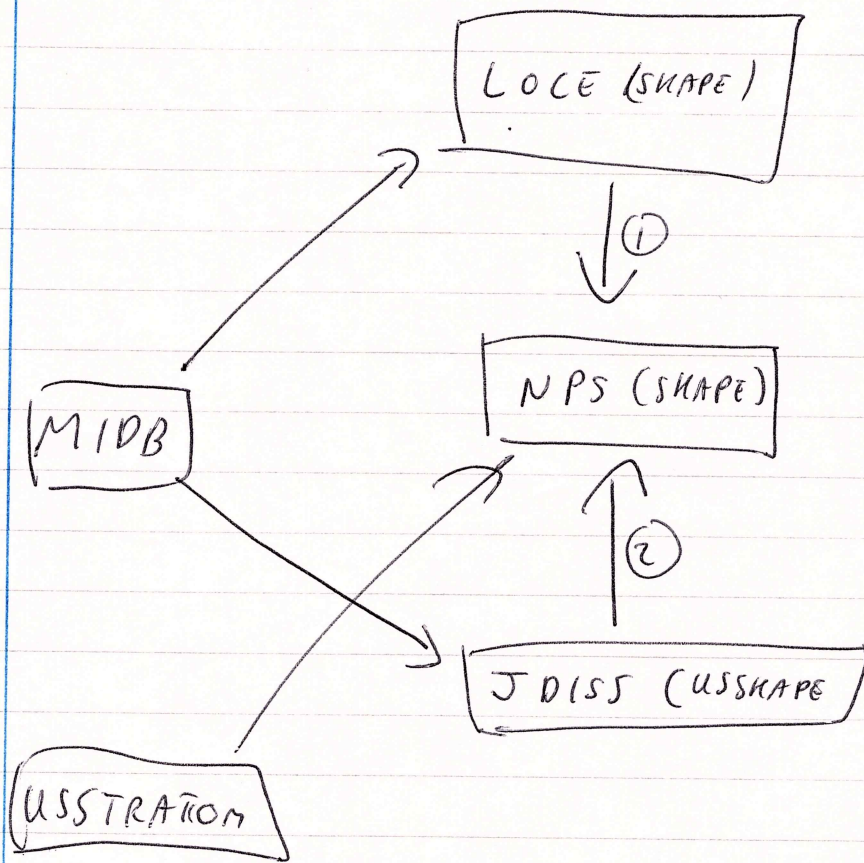

Tracking Fleet Targets → NPS

Assimilating information about enemy defenses → NPS mission plans

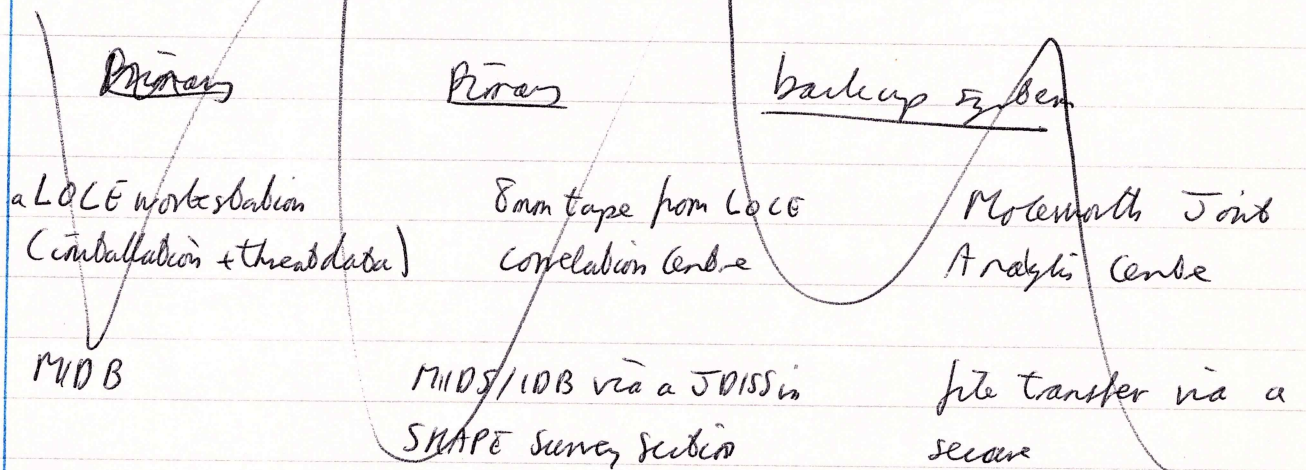

→ 2 kinds of mission plans

(1) air plans - track fleet targets

Moving data to NPS from support systems

# Moving data from supplier system to a PS

## Installation + threat data

Primary  
Backup

a LOCE workstation 8mm tape from LOCE Correlation Centre  
~~8mm tape from LOCE Correlation Centre~~

or from Mother's Joint Analysis Centre

MIDB MIIDS/IDB via a JDIS in SHAPE Survey Section

## National target base data + other data not available from LOCE

Primary  
backup

File transfer via a secure link from USSR/ATCOM

Message transfer via an AUTODIN terminal in SHAPE Nuclear  
Plans and operations section (unit route data + backup to USSR/ATCOM)

Old System

STRATCOM

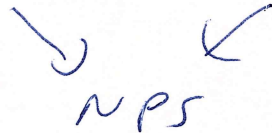

NADOB

EUCOM ← both us

EUIDAB

— supplied as inputs to COCE

New System

STRATCOM

MIDB

— feed to COCE

NPS

1130-1300

1600 → 1800

Piper E-Team Solo

Tree set up of 23.00 pm in UAT.

→

AOSC E-Team returns

✓ 17.57 set up + 2 hrs ~~per~~ would

FY98 Bud → 'Aught !!' (FAS)

Began dev of prototype expert based by 5

to our plan, explaining adaptive our plan

using NNPS parameters

Development of an intel hit NNPS + US/NATO

intell system

→ Began development of a prototype computer based

training system for nuclear ~~planning~~ <sup>explaining</sup> adaptive ~~planning~~ <sup>adaptive</sup>

nuclear planning using NNPS parameters.

NMCCRS → NATO CA System (SCARS replacement)

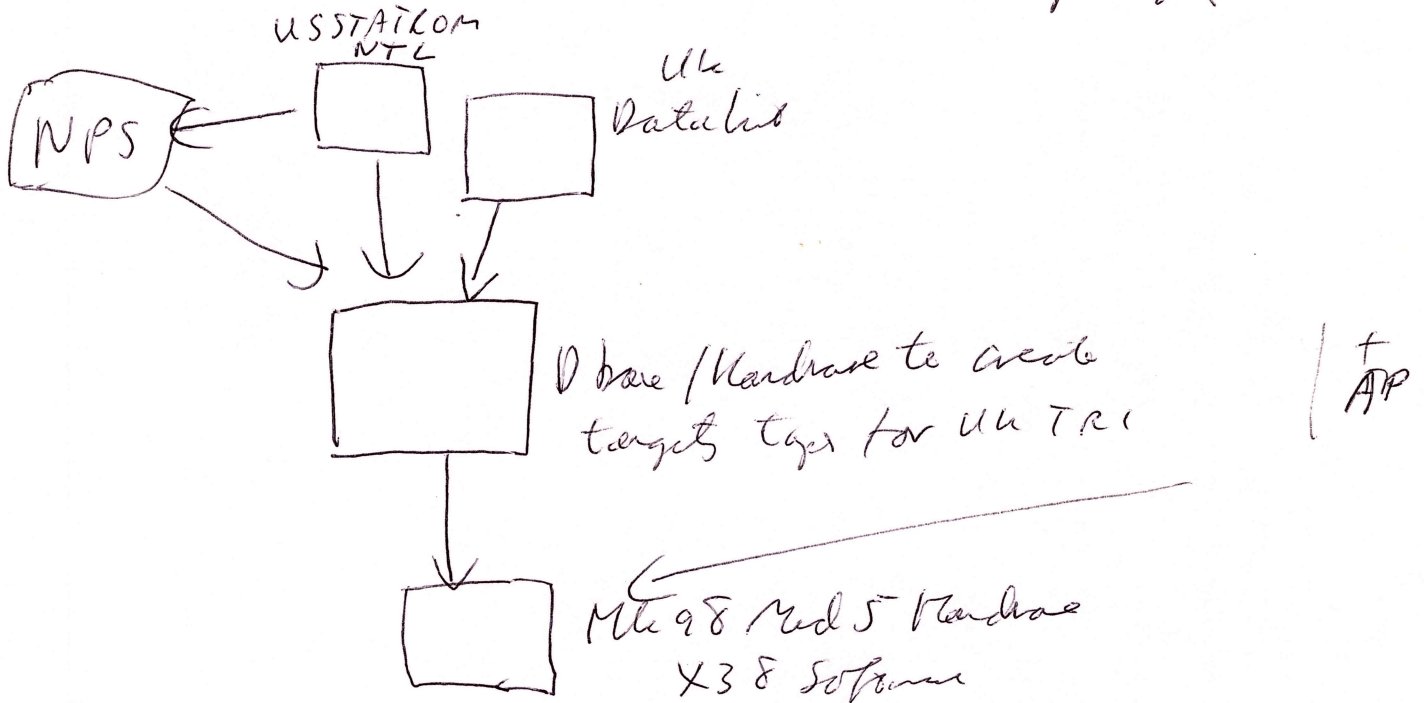

MCCIS - SACCA/TI NATO CA Sys

Can the ex-core cables and at Euro

NMCCRS  
→  
EUCONA?  
or

NPS - for A2

- doesn't include SCBM fields

NATO → (Acronym) →

SCARS - ... C2 of Sub-Strat N.F.

AINPS - Ace Intelligence network  
play system

F705 - US budget request  
NATO Sig Intelligence Program (NSIP)

upgrade & enhancements to hardware  
& software of AINPS.

USN - liaison@dpa.mod.uk
