

JOB OPENING
SLBM Documentation Specialist/Engineer
Position Number: GGKM-141
Location: Dahlgren, VA

MUST BE A U.S. CITIZEN FOR SECURITY CLEARANCE PURPOSES
CACI is an Equal Opportunity Employer

Duties:

CACI has an immediate opening for a former MK 98 Fire Control System operator to serve as a SLBM Documentation Specialist/Engineer in our Dahlgren, VA office. Perform studies concerning issues related to the Submarine Launched Ballistic Missile (SLBM) new targeting initiatives and new Fire Control System (FCS) capabilities. Duties and responsibilities will include developing and preparing TRIDENT I, TRIDENT II SLBM/SSGN FCS fleet documentation products such as Newsletters and Training Targeting Handbooks, and developing and preparing inputs to documents such as Officer Guides, Standard Maintenance Procedures (SMPs), Standard Operating Procedures (SOPs), Strategic Targeting Handbook, Strategic and CTF Supplement Is and FCS Technical manuals for our Navy clients. Responsibilities may also include receiving, reviewing, and preparing responses to SLBM Trouble and Failure Reports (TFRs). Additionally, the successful candidate will be asked to attend with and/or represent our client at various design reviews and meetings.

Required Qualifications:

Bachelors Degree in a related field and two (2) to four (4) years of MK 98 Fire Control System operational experience for an Engineer 2. Five (5) to seven (7) years for an Engineer 3 & seven (7) to nine (9) years for an Engineer Lead. Three (3) years of specialized experience may be used to satisfy the degree requirements.

Must be familiar with the documentation required to operate and maintain the SLBM Weapon System. Ability to interpret and apply federal and military specifications and standards. Proficient in the use of personal computers. Ability to meet eligibility requirements to obtain access to sensitive or classified information.

Required Software:

Microsoft Word, Microsoft PowerPoint, Interleaf/Quicksilver, and Acrobat

Desired Qualifications:

Familiar with the SLBM targeting concepts, processes, and procedures. Familiar with the SLBM FCS software media logistics practices and policies. Familiar with SLBM Training Target Database. Occasional overnight travel may be required.
