### Nuclear Weapons

[Background Information](#) | [IPT Leader](#) | [Projects IPT Supports](#) | [Contact](#) | [Updated](#)

#### Background Information

The Nuclear Weapons Integrated Project Team (NW IPT) has an important part to play in the procurement and support of the UK national nuclear deterrent. Special responsibilities include delivering a safe, available and affordable nuclear warhead programme. The NW IPT also ensures the necessary level of continued availability and capability of the MOD owned, but contractor operated Atomic Weapons Establishment and is responsible for the management of the MOD's nuclear liabilities on BNFL and UKAEA sites.

#### IPT Leader

Mr Roger I Jackson MSc, CEng, FRINA, RCNC – NW/TL (SCS)
