Solicitation Number: 111PCMC00
Notice Type: Presolicitation

Synopsis:

Added: Nov 12, 2010 1:34 pm

Strategic Systems Programs intends to award a contract modification to Lockheed Martin Space Systems Company (LMSSC) for follow-on technical engineering services and hardware. As a modification to N00030-10-C-0043, this procurement will provide FY12 systems engineering services to support the integration of the TRIDENT II (D5) missile and reentry subsystems into the Common Missile Compartment (CMC) for the OHIO SSBN Replacement and United Kingdom Successor programs. The contractor will also deliver by December 2015 hardware deliverables pertaining to required Special Test Vehicles and Special Shipboard Support Equipment in support of the CMC effort. This effort is inextricably linked to work that LMSSC is already performing under Contract N00030-10-C-0043, which was awarded using other than full and open competition. See Note 22.

Contracting Office Address:

ATTN CODE SPN
 Strategic Systems Programs
 Arlington, Virginia 22202-3930
 United States

Place of Performance:

Contract work will be performed at LMSSC facilities in Sunnyvale, CA and Cape Canaveral, FL.
