GLASGOW EUROPEAN CONSTITUENCY

3rd November 1997

Tony Southall
Joint Secretary
Scottish Campaign for Nuclear Disarmament
15 Barrland Street
GLASGOW
G41 1QH

Dear Mr. Southall,

Thank you for your letter of recent date regarding the issuing of Potassium Iodate tablets being part of the strategy to combat the effects of exposure to radiation as a result of a nuclear accident.

As you are no doubt aware the member states who have nuclear weapons are France and Britain and they alone are responsible for the monitoring, disposal and safety measures relating to these. It is, therefore, not a competence of the Parliament.

Whilst I agree with the points you make about the inadequacy of this measure I have to advise you to direct any questions to either MP's or Councillors who do have this as part of their remit.

Yours sincerely,

BILL MILLER MEP
