Gett. MAD

- Dame Lindsay → Stuart Airfield

p264 - ~~1956~~ 1959 - 69 aty ops + 37 Cambrian tps.

1962 - 16 " 82 "

(p265 - Dame Lindsay - ~~1980~~ 1980s - attack Sassor deluded SSA Fleet.)

→ condensation

Labr (1970s - look at (50%) - 30-40 atis

p265 62 - 15 int M+C ; MOD-10? - Labr - 15

Dele 25-23525a

~~Dele~~ 92 Ben 16-1978 e 2

West - not bargain based - but doesn't have to be
Memoir, not Opbin 1

Dec 78 aty portland - all 3 pts for LO aty
(thyl PM hadi recd 1983) + 2nd aty in 78

Dele 23-219 e 71 p2 - 28/10/77 set up study into memo at
- Charwell, for Sec + Sec Def + PM.

→ Minute 22/11/77 - aim for May;

- could submit before review (July 78)

* P5 → on 22/10/77 (with study set up) - Kealy via was
cancel check if Memoir unreviewed

→ PM+3 (acute) due to need mid Oct on Cleaveland (copy)

- Dele 70-783 e13 p1

→ in follow up note to Chis CoS paper - Quaker note to PM
int reply to PMs on 5 memo

Dele 70-787 e44a

p1 - 'Cher + Sumer System'

- paper for Priority 24/10/77

→ SIC to produce paper on Mon and.

e44ap2 - Priority 'Cherish' 24/10/77

p4 - 'agreed to a factual update of the SIC document, but pointed out that the agents have not closed, while the political judgments leads to the adoption of the Mon and have been reaffirmed by Ministers on several occasions, most recently in 1976.

p5 - list of papers in Mon and (Cable Clear)

- not under Sumer

Notes dated to 28/10/77

e59 p1 - ABM 'can only be directed to non-US Chers' - US would swamp them

p2 - 'Mon and holds good'

p3 - SIC (A)(72)30 - 'on what to do about the Mon and criteria was based - has been updated in SIC (77)(N)40.

p5 - Team cover, FCO relation aspects - re Cher. One re the - 'challenged the Mon and'

→ subsequently agreed to update 1972 SIC document
[part of report 24/10/77 for NY]

* → One paper p98.

- and removing Mon and → 'might cause the Reg to doubt whether the des covered countries in the mind of the Bc minima

left 70-783.

e3 p2 - See Ref - no work on reserves for 2 yrs from May 1976.

6a

→ PM has asked about need for studies (Sep 77)

Dec 70 - Oct 72 - study into SNE - mid 1980s

e3 - cont for sum - study needs

e4 p5 - 78-82 gap.

- cont brief was re checked + its main d'ade

e5 p2 - inter-annual gaps - late 78 - 82.

Ref 25-335

e70(ii)pl 27/6/79 - Marka - re Oes

'small had worked suitable for sea. det system'
+admission design
-ask for 3 more Oes. cost c \$ 12m each

e75 - re Oes - 2, + pos 3.

e78 - mby with US - improved - his UK should do more Oes (-2-3)

e79(i) - best prog - success + target - would need 2 (+) Oes

e9(i) It take 6 weeks to make a Oes

Ref 25-334

e3p2 US/UK mby 16/8/79 - various system options

pl6 - Reason - should be useful to have physical boundaries for
CA RV, CTB permits we hoped to have a
successful system Oes by end of 1980 or mid 81
at latest; which should produce UK a time for

17/8/79
17/8/79

pl7 - How - UK with high-beta design was following the
same path as US - so why do UK need to see US design
Madsen - 'to confirm that we were working on the right - parallel
'path'

'US design into, particularly over the configuration of US
LHRs'

50% -

Charrod was target yield to data

TTBT - requires dual calculation of projected yields

p206 - Marka - to upgrade UK UK for TRI.

1978 exercise on effects of UK AUSA design (the called)
Pakata Mem - high yield

- UK - TRI with AUSA UK

207 Epend - make + SCMA UK

209 c 20 kb -> system or compare test. $\left[\frac{\text{cf re UK + Oes}}{\text{North - CANC 419.}} \right]$
