

SCOTTISH CAMPAIGN FOR NUCLEAR DISARMAMENT
420 Sauchiehall Street, Glasgow G2. Tel: 041-3312878

2ND REMINDER

Dear Member,

Please forgive me for not reminding you again sooner, about your valued subscription to Scottish CND.

It's easy for both of us to overlook or put off these jobs when we're busy or distracted by other concerns. But the Campaign exists only because of our regular subscriptions and donations. The other money we get at times from fundraising is an unreliable bonus, which lets us do more of the active campaigning. But it's the regular income that actually holds the campaign together, as a constant reminder to the world of our desire for peace and security.

The last year has shown us that the world as a whole can move towards nuclear disarmament, which does encourage us. But Britain's nuclear weapons and the nuclear bases here will still be a needless and growing obstacle to the arms talks. Scottish opinion for nuclear disarmament is now well ahead of English opinion, so Scottish CND really has a vital international role to play, by pointing the British electors persuasively in the direction of a nuclear-free future.

There are certainly other things you can do personally to make nuclear disarmament a little more likely, but just now I'm asking you for one piece of key assistance in our urgent work.

Please use the enclosed form to renew your Scottish (and British) membership soon, and don't hesitate to let me know at the same time how you feel about the Campaign.

Best wishes,

Yours sincerely,

Ian Davison

Ian Davison
General Secretary
