Dear John

Nuclear Bunkers

Further to your fax of 28 June I enclose answers to the Parliamentary Questions suggested by Duncan Campbell to the Secretaries of State for Defence and Scotland.

I trust that the answers shed some light on the darkest recesses of civil defence policy.

If you have any comments on the information or any suggestions for further action these will of course be greatly appreciated.

I thank you for all your assistance.

With every best wish.

Yours sincerely

A handwritten signature in blue ink that reads "Margaret".
