

PLAIN FACTS

This leaflet is about your future and the future of your children. Have a look at this map and check where your home is.

We live in a world engaged in a nuclear weapons race. There are already sufficient bombs to destroy the world several times over. A 10-megaton bomb (the power of 10 million tons of T.N.T.) is commonplace. If exploded over Manchester Town Hall, this is what it would do:

**IT COULD REALLY HAPPEN !
WE HAVE TO MAKE A STAND
—AND YOU CAN HELP**

(see overleaf)

WHY IS BRITAIN A TARGET?

(see map overleaf)

BECAUSE

American and British nuclear bombers and submarines have bases here.

BECAUSE

We are members of N.A.T.O., which is committed to a first use of nuclear weapons.

WHAT ABOUT OUR NUCLEAR DETERRENT?

Our small island, with its nuclear bases would be eliminated immediately should an attack be launched. The so-called deterrent is simply a means of first use and is not a deterrent. It is an act of suicide.

WHAT CAN BRITAIN DO?

1. The same as many other countries in Europe. Free ourselves from nuclear weapons and bases.

WHAT CAN YOU DO?

JOIN THE CAMPAIGN FOR NUCLEAR DISARMAMENT and the struggle against nuclear war preparation by filling in the form below and returning to:

Ray Hartman, C.N.D., N.W. Region, 28 Tolworth Drive, Manchester M8 7WW.
